

iQ™

MAGNIFIER

D25100

Fact Sheet

The iQ magnifier has a 7" lightweight acrylic lens offering a large field of view. The magnifying head moves freely and holds any position – maximising horizontal and vertical movements. The heavy-duty internally sprung arm provides good horizontal reach and will stay in place. A 12 diopters (4.0X) magnification lens mounted on a swing arm is also included. The magnifier features 3 colour temperatures, allowing you to adjust lighting for different tasks. Lateral protections help you keep it clean. The magnifier is fitted with a removable lens protector.
